EXPERIENCE

Aatoon Solutions

Dec 2024 - Till Date

Jr. UI UX Developer

Cochin Infopark, India

- Designed and developed responsive, user-centered web pages and WordPress sites using Figma, HTML5, CSS3, SCSS, Bootstrap, Angular, and Elementor, ensuring brand consistency and mobile responsiveness.
- Created wireframes, homepage concepts, and visual assets (logos, posters) matching client brand identity.
- Tested designs with users and made changes based on their feedback to improve usability.
- Worked with the team to review designs, fix issues, and ensure cross-browser compatibility.

Vismaya Max Studio [part-time]

Jan 2023 - Dec

2024

Visual Designer

Kanyakumari, India

- Created and edited visual content for print and digital media, including business cards and posters.
- Retouched and enhanced photos using Photoshop, including color correction and layout design.

PROJECTS

Web Application | Figma, Photoshop, HTML5, CSS3, SCSS, Bootstrap, Angular, Git

- Designed selected UI pages in Figma and converted around 75+ application pages into responsive HTML/CSS.
- Studied similar websites and apps to guide design decisions and follow common usability practices.
- Ensured pixel-perfect, accessible, and cross-browser compatible frontend implementation.
- Collaborated with the Angular team to integrate templates and optimize performance.

Websites | Figma, Photoshop, WordPress, Elementor, CSS3, SCSS

- Designed selected pages and full website interfaces in Figma for different client projects.
- Converted 75+ design pages into fully responsive WordPress websites using Elementor.
- Customized CSS/SCSS stylesheets to match designs closely and keep the site consistent across devices.
- Improved site responsiveness and performance, and handed off work smoothly to content and development teams.

Multi-Client Homepage Design Projects | Figma, Photoshop

- Designed 20+ homepage layouts for client proposals across tech, energy, lifestyle, and legal services.
- Created high-fidelity UI designs in Figma with clean layouts, matching each client's brand and audience.
- Shared design concepts with clients, collected feedback, and refined layouts for better usability, with several concepts shortlisted for client proposals.
- Applied good design practices for accessibility, visual hierarchy, and responsive layouts.

Logo & Poster Design | Figma, Photoshop

- Designed logo concepts for clients, delivering polished final versions aligned with their brand identity.
- Created engaging digital and print posters for various events and social media campaigns to boost client visibility.
- Worked closely with clients to gather feedback and iterate on designs until final approval.
- Designed logo concepts for clients and delivered polished final versions matching their brand identity.
